## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 27 March 2007 has been entered.
2. Claims 1-20 have been cancelled as per Applicant's request.
3. Claims 21-24 have been presented for examination.

### ***Response to Arguments***

4. Applicant's arguments, see page 5, filed 27 March 2007, with respect to claims 21-24 have been fully considered and are persuasive. The rejection of claims 21-24 has been withdrawn.

### ***Allowable Subject Matter***

5. Claims 21-24 are allowed.
6. The following is an examiner's statement of reasons for allowance:

As per claims 21-24, the prior art has shown that it is well known in the art and obvious for detecting patterns of payments for a resource over a plurality of users in electronic security value units and comparing those patterns of payments to predetermined payment patterns.

There are no teachings in the prior art of indicating a denial of service attack based upon the comparison of the patterns of payment to the payment patterns. Since no teachings or

motivation can be found of indicating a denial of service attack based upon the comparison of the patterns of payment to the payment patterns, claims 21-24 are therefore novel and non-obvious.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Claim Objections***

8. Claims 22-24 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 21. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Conclusion***

9. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
